

Our MDO Training Team

Dr. Michael Lynn

A founder and CEO of Hound Labs, Inc – a California-based start-up company that has created the first hand-held breathalyzer to detect and measure recent marijuana and alcohol use. Previously, Mike was a general partner at a global private equity firm and as a venture capitalist invested widely in emerging life science companies. From 2001-2002, Mike was a White House Fellow, Assistant to Secretary of State Colin Powell, Office of Policy Planning. He worked with multiple government agencies and private industry to develop unique sensors for diseases and biosecurity. He also advised senior officials on security issues related to infectious disease outbreaks. Mike is a practicing emergency medicine physician at a trauma hospital, a deputy sheriff (reserve), and also has an extensive background in government affairs and public policy.
